

Xshielder iPhone 17

For Ex Zone 1

Xshielder continues to deliver on its promise of zero technology lag for hazardous areas with our cover for the iPhone 17. This model pairs Apple's latest smartphone technology with our sleek flame-proof enclosure, creating the lightest and slimmest solution for ATEX/IECEx Zone 1 environments to date.

Built to give companies added flexibility in their mobile device deployment strategy, the Xshielder iPhone 17 offers a more accessible entry point compared to our Pro Max-series options, while maintaining the protection, durability, and ease of use that define Xshielder devices.

Xshielder ends the era of outdated Ex smartphones – because technology should never hold you back.

Apple Configuration

Device:	Apple iPhone 17
Model:	A3258 (contact us for other models)
Storage:	Any
Color:	Any

Patented design

Xshielder's unique patented design allows the cover to be opened after installation, offering three key benefits:

Replaceable –

If damaged, the cover can be easily replaced without discarding the entire unit

Residual Value –

When it's time to upgrade, the iPhone can be removed, traded in, or resold—maximizing investment

Sustainable –

Both the phone and cover can be recycled, reducing waste and minimizing CO₂ impact

About Xshielder

Based in Norway, Xshielder brings over 100 years of combined expertise in designing Ex-certified mobile devices for hazardous environments. Founded by a team of innovators who have worked together for decades, we are driven by a passion for safety, quality, and cutting-edge design.

Our vision is to provide uncompromised mobile experiences, enabling users in hazardous areas to work seamlessly — just as they would with any personal device. Our solutions are trusted by all major oil and gas operators in Norway and our global partner network enables us to reach customers worldwide.
